

A LETTER FROM OUR FOUNDER

Tube and Solid Tire was formed in 1999 in San Antonio, Texas. The brand name **DOBERMANN** is printed on our inner tubes and solid rubber tires (which is a registered trademark).

Dobermann is the international brand of the company Covencaucho, founded in Venezuela in the 1960s. We manufacture inner tubes and solid rubber tires in our modern facilities. Our founder, Mr. Ferdinando De Filippo, had a vision to provide the highest quality rubber products using the latest equipment and materials. His dream has come to fruition, and today Covencaucho supplies all major tire manufactures in South America, and most US tire distributors (through **Tube and Solid Tire and the Dobermann Tire Company**). We provide top quality, on time service, and professional people to keep our business at the highest possible standards.

Our commercial vision is to be an organization recognized in the tire business as the number one solution provider. A company where the appetite for our products and services make us the first choice in the industry, for both clients and competitors.

We focus our efforts in knowing, understanding, and completely satisfying the needs and requirements of our clients. In this way we meet and surpass their expectations. Every day we rely on cutting edge technology coinciding with the constant improvement of our performance, processes, and personnel. These values strengthen our quality management system.
